INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/AU2004/000497

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Statement		
Novelty (N)	Claims 1-29	YES
	Claims	· NO
Inventive step (IS)	Claims 1-29	YES
• • •	Claims	NO
Industrial applicability (IA)	Claims 1-29	YES
	Claims	NO .

^{2.} Citations and explanations (Rule 70.7)

CA 22351783

A system including one or more electricity transfer devices connected between the first network connection and the second network connection, one or more electricity sources connected to the first network connection, and an electricity transfer controller connected to the one or more electricity transfer devices, the one or more electricity sources, the first network connection and the second network connection. The electricity transfer controller monitors the first electricity flow and the second electricity flow, and controls the one or more electricity transfer devices and the one or more electricity sources so that the second electricity flow is less than or equal to a first value and the first electricity flow is provided at the first network connection.

Novelty, Inventive Step, Industrial Applicability (Yes) Claims 1-29

The citation does not disclose the determination of regional requirements within areas, issuing of resource requests, and regional transfer of resources, consequently the claims are seen as being novel, having an inventive step and are clearly industrially applicable.
